## Debbie DeMaria

We could all use some encouragement from Debbie DeMaria. The backbone of The Drugless Doctor brands, she helps raise up leaders, takes time for a friend, and listens to those who have something to say. Her successes in the marketplace and at home are often well-received when she shares her secrets at conferences all over the world. When Debbie is spending 'season' in Naples, she is the one who administers Breast Thermography at our Naples practice.
